

Build Your Own Marshmallow Snowboy

Snowboy is made of snow, but you can build your own Snowboy out of marshmallows!

What you need

- 3 large marshmallows
- 1 pretzel rod, broken in half
- 2 thin pretzel sticks
- Mini chocolate chips
- White decorating icing

Steps

- 1 Push the pretzel rod half through the center of all three marshmallows to stack them.
- 2 Break the thin pretzel sticks and add them for arms.
- 3 Use tiny dabs of icing to "glue" chocolate chips on for eyes, mouth and buttons.
- 4 Give your Snowboy a name, or make a whole family of Snowville friends!

Snowboy Challenge

Can you make yours look like Snowboy in the book? Try blue decorating icing for his body, a green gumdrop for his cap (with a yellow icing brim turned backward), a red fruit strip for his scarf, and two red candies for his sneakers.

SAFETY

Grown-up help and supervision needed. Marshmallows can be a choking hazard for young children.
